In [6]: # TASK 4 - Movie Genres Countplot

movies = pd.DataFrame({"genre": ["Action", "Comedy", "Drama", "Action", "Comedy"]

sns.countplot(x="genre", data=movies)
plt.title("Movie Genres")
plt.show()
```

#Analysis 1. Payment Method: UPI has the highest number of orders, making it the most preferred payment method. 2. Average Delivery Time: Biryani has the highest average delivery time, while Burger has the lowest. 3. Total: Biryani has the highest total delivery time among the categories. 4. Movie Genres: Action is the most frequently occurring movie genre in the dataset.
